class size limited – register now!

(full) April 14 ___ September 22
 ___ June 9 ___ October 6
 ___ July 14 ___ November 3
 ___ August 18 ___ December 8
 ___ contact with future dates

Learn the clinical aspects of LimbLogic VS, Ohio Willow Wood's vacuum suspension system. Course covers static and dynamic socket fitting, vacuum pump configurations, fob operation, system evaluation, liner options, alignment, and troubleshooting.

(Note: comprehensive socket fabrication instruction is provided in the technician-focused course.)

Must be a certified or licensed practitioner.

7.25 ABC credits / 7.0 BOC credits

LimbLogic™ VS for Technicians

class size limited – register now!

(full) April 4-5 ___ October 10-11
 ___ July 11-12 ___ November 7-8
 ___ August 8-9 ___ December 12-13
 ___ September 26-27
 ___ contact with future dates

Course covers all aspects of fabricating the LimbLogic VS system: recommended diagnostic and definitive socket materials, controller configurations and care, fob operation, system evaluation, troubleshooting, and cosmesis. Attendees will fabricate laminate sockets following recommended techniques for airtight socket designs.

Must be a registered technician working at a facility with a certified practitioner.

11.75 ABC credits / 11.5 BOC credits

• no registration fee • hotel and meals paid
